People with a disability are 15% of our world. They are part of human diversity, not an abnormality.
Introducing WeThe15

WeThe15 aims to be the biggest ever human rights movement to end discrimination against persons with disabilities and transform the lives of the 1.2 billion people in the world with a disability – that’s 15% of the whole world.

The WeThe15 symbol represents a world where 15% are no longer marginalised.

The WeThe15 campaign aims to unite every community in the world to start a movement for change.

Purple has long been associated with the disability community, but this will be the first time a vibrant, positive and highly visible symbol exists that can unite the community and call for actionable change.

How you can support: Share it!

We want to reach at least half a billion people with this campaign within its first two weeks.

You can help us achieve this ambitious target by sharing or cross-posting the campaign activity from the @WeThe15 Twitter and Instagram channels, and @Paralympics Facebook page. This includes sharing/cross-posting the epic 90-second long campaign film which is a loud, proud and vibrant celebration of persons with disabilities.

An overview of assets is on p15-18 and visit WeThe15.org for more information.

Importance of sharing/crossposting

We will upload some assets to an ftp for you to upload natively, but generally we encourage sharing or crossposting from @wethe15 channels because it will leverage social proof. What is social proof?
People are more likely to watch and share a video with more views. If we each upload the video, we split the views.

Here is a guide to
• crossposting on Facebook, allow-listing content on Twitter, sharing Instagram feed posts in Stories.

Please contact Ryan.Hills@paralympic.org to set up crossposting with Facebook.com/Paralympics and Twitter.com/wethe15.
How you can support: Live it

- Schedule **WeThe15 campaign assets** across all channels
- Communicate campaign to **internal stakeholders** and ensure all relevant departments (HR, PR, Comms, Marketing) are on board
- Identify opportunities to **update current advertising** to feature persons with disabilities and using the colour purple during the Games
- **Identify what you can turn purple** on 19 Aug to show your support for the Movement (head office, social media, website etc)
- **Identify ambassadors & influencers** who can promote the campaign to help grow awareness
- **Create your own content** using the campaign symbol or the colour purple and use your brand/power/influence to support the movement.
- Confirm you can **share campaign film** across all channels
## How you can support: Live it

Today we turn our attention away from sport. To the future.
Away from athletes, to the global population of persons with disabilities.
Over one billion people. 15% of the world.
WeThe15 is a global movement for change.
That says: persons with disabilities must be seen, heard, active and included.
A movement to make the world fairer, more just, and more equitable
Before the Paralympic flame is extinguished, it will pass its light to a new movement.
The world’s biggest organisations are converging to champion WeThe15.
To create policy. To build momentum.
To bring about a day where no-one is held back from achievement. Derided. Or excluded.
A day when we will look at people different from ourselves and see only our shared humanity.
Because when that day comes. We will look back on this moment and say:
When the floodlights went out.
And the cameras stopped rolling.
That's when the change began.
Podcasts

A special series of WeThe15 podcasts will be hosted on A Winning Mindset: Lessons From The Paralympics.

These conversations will feature high profile Paralympic athletes interviewing global leaders.

OUTDOOR / PRESS
We are asking our partners to use the master artwork files to:
- Run our outdoor/press creative (donating your media in order to make this happen)
- Run our takeover concept on your existing outdoor/press creative

We have included links below to the master artwork files (full page, half page, 6 sheet, 48 sheet), along with copy options and corresponding translations. It will be the responsibility of the partner to choose their preferred copy from the list, adapt the artwork file accordingly and supply to press/outdoor media sites.

In terms of timings, the aim would be for this work to go live from 19 August - 6 September (the day after The Paralympics Closing Ceremony). That being said, this is a 10 year campaign, so we would be open to running this creative at different times depending on the feasibility for each partner.

The work should not be pushed live before campaign launch (19 August 2021).

Link to Outdoor/Press master artwork files including translations.
Link to takeover master artwork files including translations.

Files will be available from 23 July in English and by 5 August in all campaign languages.

The purple strip should be positioned in a way that feels disruptive and eye-catching. If it looks too neat, it becomes self-defeating.

While it is important that the brand is obvious, the strip should interfere with the creative in order to make it impossible to ignore.

MEDIA RELATIONS LAUNCH
The approach: earn interest, create reaction

19 August – Launching the Movement

The approach: With spokespeople and media all over the world we need a connected approach that will create opportunities for every stakeholder on launch day.

What’s happening? The first public announcement of the Movement. We aim to drive awareness of the WeThe15 campaign, global partners and the 10-year mission.

Who are we speaking to? Media, general public, disability NGOs.

What content will there be? Press release, spokesperson interviews, campaign film, campaign symbol, imagery from Light Up.

Who are we targeting? Global news wires; broadcast, print and online; national correspondents in sports, third sectors, health, consumer and business. News coverage is the priority, features will follow.

What’s the plan of attack? The launch will unfold globally. We want to be speaking to media in target markets from early morning. The engagement will start in Tokyo (the first media we will speak to) and then move to Europe/Africa, and then finally North America.

We have key target media markets: AsiaPac – Japan/China/Australia; Europe/Africa - UK, France, Italy, Germany, South Africa; North America – USA/Canada.

Who is speaking? A host of stakeholder spokespeople and athletes are being lined up for pre-briefings and on launch day.
