

Notes

The Purple band needs to cover 15% of the screen so the file has been left as native Indesign to allow easier editing. This design has been set up for a 1920 x 1080 px screen so should be ready to use in most instances.

If resizing is required, use the Scale Tool in Indesign by double clicking and entering the values in the dialogue box that appears. This allows the font sizes to scale with the layout correctly. (The scale functions in the top Application Bar and side Transform Palettes do not always scale the font size.)

When adjusting the dimensions to fit a layout, attempt to retain the look and feel of the original.

Only the landscape version of this takeover panel has been supplied as a vertical panel does not work well with these screen dimensions.

15% is hard to ignore.

**So why are people with disabilities so often overlooked?
We're dedicating 15% of our ad space to WeThe15.**
